The courses were developed in close collaboration with Cambridge University Press who endorses these. Cambridge English Language Assessment created and validated the placement and course tests and vetted all other in-course assessments.

With the courses you develop all your English language skills through living in the virtual town of Velawoods where you interact with a range of Avatar based characters using engaging real life activities and speech analysis technology.

The highly animated learning environment and the developing storylines provide multiple opportunities for you to learn the English with new language introduced and practiced in a realistic context.

They use a tried and tested syllabus that makes learning easy within a unique, immersive learning experience that offers the next best thing to living in an English speaking country

How it works

The two courses can be delivered as a pure online programme with its self-contained virtual tutor.

We believe added value and support from a locally based tutor would enhance the course experience

Progression

The course tests are linked to Cambridge English's internationally recognised qualifications.

After successful completion of the Beginner and Elementary Course students will be prepared to sit the Cambridge Key English Test (KET). This is the entry level English Test.
